## The Safer Escape by MODUM Fire Escape Ladder properties

- The original foldable Fire Escape Ladder, designed and manufactured by MODUM ApS in Denmark.
- Full anodized aluminum construction and stainless-steel fixings provide excellent durability. The Ladder is covered by 15 years product warranty.
- The profiles are rebated in a perfect fit, and the ladder is weatherproof and maintenance-free.
- The slimline, fold-away design has a closed profile of only 2.8 inches.
- Anti-slip aluminum rungs are concealed inside the ladder's profile.
- Anti-tamper locking pin at the height of the escape window eliminates unauthorized access from the ground.
- Optional MODUM harness for extra safety.
- The installation is simple, and all the necessary fittings are supplied.
- The release pin is 100% acid-proof steel, and it is mounted in a nylon liner to prevent corrosion.
- Test report from SP Technical Research Institute, Sweden.
- Product approval from SINTEF Teknisk Godkjenning, Norway.
- Safer Escape by MODUM Fire Escape Ladder is approved by the European Standard NS-EN 131.
- Product evaluated by the ICC-ES in report ESR-4824. USA
